

Here are some things to find out about Antarctica, a continent a lot different to the others. You can find the South Pole on an atlas or on your globe. There may be a trick question somewhere below. Some answers are Y or N (yes or no).

First.

Does it rain on the coast of Antarctica?.....
Does it snow on the coast of Antarctica?.....
Does it rain at the South Pole?.....
Does it snow at the South Pole?.....

Second.

Most of Antarctica is what type of desert?.....
Is all the land covered in ice?.....If not what % is?.....

Third.

Which other continent has less people living there?.....

Forth.

The largest purely terrestrial animal in Antarctica is a midge which grows up to 6mm long. But as far as other wildlife goes:

Which is the southernmost breeding bird on earth?.....

Which is the southernmost breeding penguin?.....

The birds with the longest wingspan are found in Antarctica, they
are?..... How long can the wingspan be?.....

Other big wildlife rely on the sea and can include: BW.....

O.....FS.....and CS.....

Fifth.

Now I thought our usual flags questions would be not possible, but I was wrong so on the flag sheet can you identify them? Go across the top row, first, then the second and lastly the bottom row.
